

Distributing and Marketing the World's Finest Pulsed Electro-Magnetic Field Therapy Devices

**Pricing and Terms**

**All models: from \$18,000\* to \$22,000  
F.O.B. Los Angeles**

**The Premium Package includes:**

- 1 Delta Pulse or EquiPulse device of choice
- 1 Portable/Foldable treatment chair
- 1 Standard or Equine Magnetic Loop
- 1 Standard or Equine Joint Loop
- 12 Volt - 110 Volt Inverter Kit
- 1 Silver Traveler's or Nano-Tex® Case
- 1 Cable Coupler
- 2 Cable Straps

\* Base pricing on Company Demo devices, if available  
\*\* Equine Loops have 12 ft leads vs 6 ft leads  
Ask about Custom Marketing Materials, Support, Onsite Training and Group Demos

**Delta Plus Office Models and Portable devices also include:**

- 1 Long Straight Magnetic Cable

**Additional Accessory Pricing :**

Standard Magnetic Loop	\$450 ea
Joint Loops	\$450 ea
Straight Cable	\$300 ea
Equine Magnetic Loop** (larger diameter)	\$550 ea
Equine Joint Loops**	\$550 ea
Mag Pad - Fully torso pad	\$1200 ea
Treatment chair	\$110 ea
Rolling Nano-Tex® Carrying Case	\$250 ea
Hard Shell Silver Traveler's Case	\$75 ea
12 Volt to 110 Volt Inverter	\$40 ea
Cable Straps	\$10 ea

**Interested in Equipment Financing?**

Our financing program is quick and easy. Most customers will have an answer within 24 hours. With a 10% cap reduction, no other collateral is required, just your PEMF Device.

**Is this purchase Tax Deductible?**

**Business Deduction:**

**Under IRS Rule 179** your PEMF Device may be fully depreciated in the year of purchase, if used in the conduct of business.

**Medical Deduction:**

**Under IRS Code Section 213(d)** a Medical Deduction is allowed for any medical expense paid for the prevention or alleviation of a physical defect or illness. Always speak to your accountant about any tax related issues.

**Interest Rates**

Finance Period	In Months	10%	12%	15%
	24	\$876	\$894	\$921
	36	\$613	\$631	\$658
	48	\$481	\$500	\$528
	60	\$403	\$422	\$452

**Monthly Payments**

Please contact us so that we can answer any questions you may have about our products and financing arrangements.

Distributing and Marketing the World's Finest Pulsed Electro-Magnetic Field Therapy Devices

**Delta Pulse™**  
Use on Table Top or placed on Floor  
16" x 4.75" x 9" at 17 lbs

**EquiPulse™**  
For use with Equines and on All Terrain  
14" x 9" x 40" at 34 lbs  
45" with handle extended

**Delta Pulse™**  
**Portable**  
Easy to transport  
14" x 9" x 22" at 27 lbs  
40" with handle extended

# The Power to Heal™

Magnus Magnetica's focus is on continuous research, development and commercialization of drug free, non-invasive Pulsed Electro-Magnetic Field therapies for treatment of soft tissue indications and neurological disorders. We pledge to collaborate with medical, clinical, athletic and equine communities, improving care for the many patients and animals suffering from these disorders.

### Did you know that:

- Pulsed Electro-Magnetic Field (“PEMF”) therapy is already in regular use in many parts of the world, and has been medically accepted in many countries, including the FDA for specific uses.
- PEMF therapy is non-invasive and pain free. The device does not even need to touch your body!
- PEMF therapy treats chronic and acute, soft tissue conditions by many concurrent, interrelated, processes and means. It improves electrical, chemical and mechanical cellular communication, promotes faster, better healing by improving intercellular fluids flow, production of ATP, release of Endorphins, increasing cellular energy and oxygen levels, reducing pain and inflammation and increasing range of motion.
- PEMF therapy is particularly effective in getting to deep muscle soreness because of its deep penetration.
- PEMF therapy increases the cellular level of oxygen absorption. Studies have shown that oxygen partial pressure can be increased by 200%. Insufficient oxygen in the cells causes lactic acid buildup under strenuous exercise. As a result, this treatment also reduces pain associated with lack of sufficient oxygen.

- PEMF therapy improves circulation, not by increasing heartbeat or blood pressure, but by opening and dilating the arteries and capillaries. This also reduces swelling.
- The Delta Pulse has advanced, novel methods of delivering magnetic pulses to cells, to open cell membrane permeability, causing improved inter-cellular fluids circulation and enhancing both the delivery and the effectiveness of any therapeutic or biological present.
- Time Needed for Therapy: The Delta Pulse system only needs to be used for 10-15 minutes each day for each treated body part.
- Published, scientific studies abound for pulsed magnetic field therapy. PEMF has been Registered by the FDA and widely used in the treatment of human delayed bone fractures for over a decade. There is also growing body of literature concerning the biological and clinical effects of this energy. A recent study using pulsed magnetic fields reminds us that in clinical studies done over 18 years, millions of patients have been treated safely with PEMF.

Please read our published “Research, Facts, Science, Studies and History on PEMF” which outlines the development and use of PEMF therapy over the last century. It includes a small sample of the more than 2000 double-blind medical studies already done on PEMF, showing success with:

**Arthritis, Circulation, Depression, Endometritis, Healing, Hypertension, Lymphocytes, Migraine, Multiple Sclerosis, Nerve Repair, Osteoporosis, Pain, Parkinson’s and Vision Improvement.**

PEMF therapy is in the process of being approved for many more uses, from migraines to depression, to sports injury. Our PEMF devices are currently being used in many countries by athletes and every day people, treating injury and disease, as well as with racehorses at stables and tracks with remarkable results.

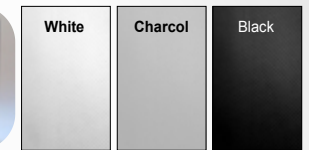

If you own/operate a bona-fide medical, wellness, fitness or health facility you may be eligible arrange a one week free trial period with this amazing device.

Delta Pulse devices are magnetic pulse generators. They are not yet FDA Registered in the USA, but are currently in use everyday in the USA, Mexico, Australia, France and Brazil. Both the Delta Pulse office and portable are not for sale in Canada.

### Warranty/Service:

3 years parts and labor  
Freight/Insurance not included.  
120 VAC 2 amp • 240 VAC 1 amp  
Reseller inquires welcomed.

*FDA Registration in the USA is applied for, but not yet granted.*
